2013

ALCOHOL and CRIME in WYOMING

Wyoming Association of Sheriffs and Chiefs of Police

WYOMING DEPARTMENT OF TRANSPORTATION:
Highway Safety Program

ALCOHOL AND CRIME IN WYOMING: 2013

April 2014

The analysis of the data collected by the Wyoming Association of Sheriffs and Chiefs of Police and the printing of this report was made possible through the assistance of Federal 402 Highway Safety grant funds received from the Wyoming Department of Transportation – Highway Safety Program. The project was managed by Johnson and Associates of Douglas, Wyoming. This report was authored by Ernest L. Johnson, Director of Services.

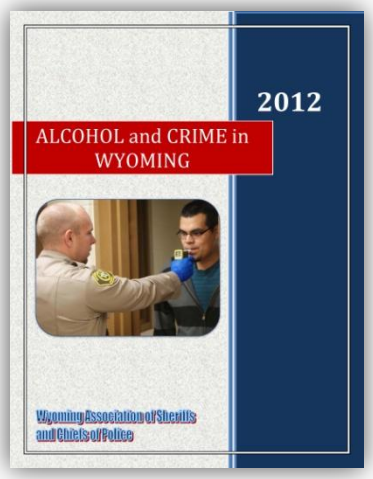
INTRODUCTION

The Wyoming Association of Sheriffs and Chiefs of Police has been collecting substance-related data from all persons booked into county detention facilities in Wyoming since 2005. The Association's first effort involved collecting alcohol-related arrest data in only ten counties in Wyoming for a period of six-months. The pilot project, as well as subsequent data-collection and analysis efforts, have received grant funding assistance from the Wyoming Department of Transportation – Highway Safety Program. The data-collection process has been refined since that initial effort and has now been institutionalized as a part of the book-in process year-round for custodial arrests in all twenty-three counties in Wyoming.

Although it had long been suspected that alcohol was a factor in a large number of custodial arrests in Wyoming, reliable data had not been available previously to more accurately determine the scope and impact of alcohol on crime in this state. A sufficient amount of alcohol, as well as other substance-related arrest data has been collected during the past nine years which can now be analyzed for the purpose of identifying trends relative to alcohol, as well as other drug abuse involvement in crime in Wyoming. Consistent patterns of alcohol involvement for certain crimes are now more evident and the frequency of occurrence more predictable.

To date, information has been collected from a total of 136,864 persons who were arrested and subsequently detained in a detention facility in Wyoming. Specific information collected during the book-in process includes the following:

- Type of offense
- Whether alcohol or drugs were involved
- Location of last consumption and point of sale
- Known blood alcohol content levels for alcohol related arrests; and
- Demographic information



Although the data fields and the process for collection were standardized and relatively consistent for the first five years, the time periods for collection and reporting were not. This was due mainly to the timing and availability of grant funding. This inconsistency in reporting periods made it difficult to compare arrest statistics from year-to-year. Beginning in 2010, the data collection and analysis has been an ongoing process and the report is being published annually on a calendar-year basis. The addition of this year's data allows for a four-year trends analysis – which is included in this report.

The Wyoming Association of Sheriffs and Chiefs of Police publish the results and analysis of the data-collection efforts each year in three separate reports. The main report provides statewide statistics and averages, along with comparisons of county statistics in specific categories. An

accompanying supplemental report provides county, community and local law enforcement agency specific statistics. The third report is an Executive Summary which provides selected statistics, information and highlights from the main report. These reports can be accessed online on the following websites:

http://wascop.com and http://jandaconsulting.com

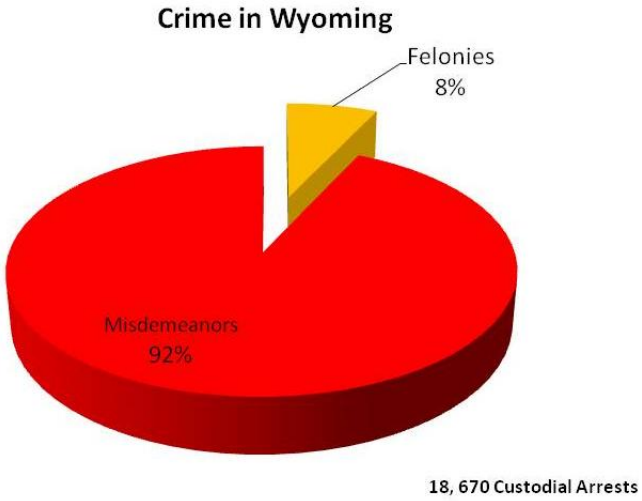
The information collected from a total of 18,670 persons who were arrested and subsequently detained in a county detention facility in Wyoming during the previous year confirms what law enforcement officers who patrol the highways and who respond to calls for service in Wyoming already know from experience – alcohol is the contributing factor in most situations that result in someone going to jail.

EXECUTIVE SUMMARY

This Executive Summary highlights a few of the significant findings contained in this report. It focuses on issues that are of obvious concern or which may be of greater interest to the general public; however, a careful review of other relevant findings and statistics contained in the main body of this report is essential in order to gain a more complete perspective of the impact of alcohol on crime in Wyoming.

This report contains an analysis of substance-related arrest information collected in all twenty-three counties in Wyoming during a twelve-month time period (January 1, through December 31, 2013) by the Wyoming Association of Sheriffs and Chiefs of Police. Information was collected from a total of 18,670 persons who were arrested and subsequently detained in a county detention facility. The substance-related arrest data contained in this report provides a statistical picture of the impact that substance abuse is having on crime in Wyoming.

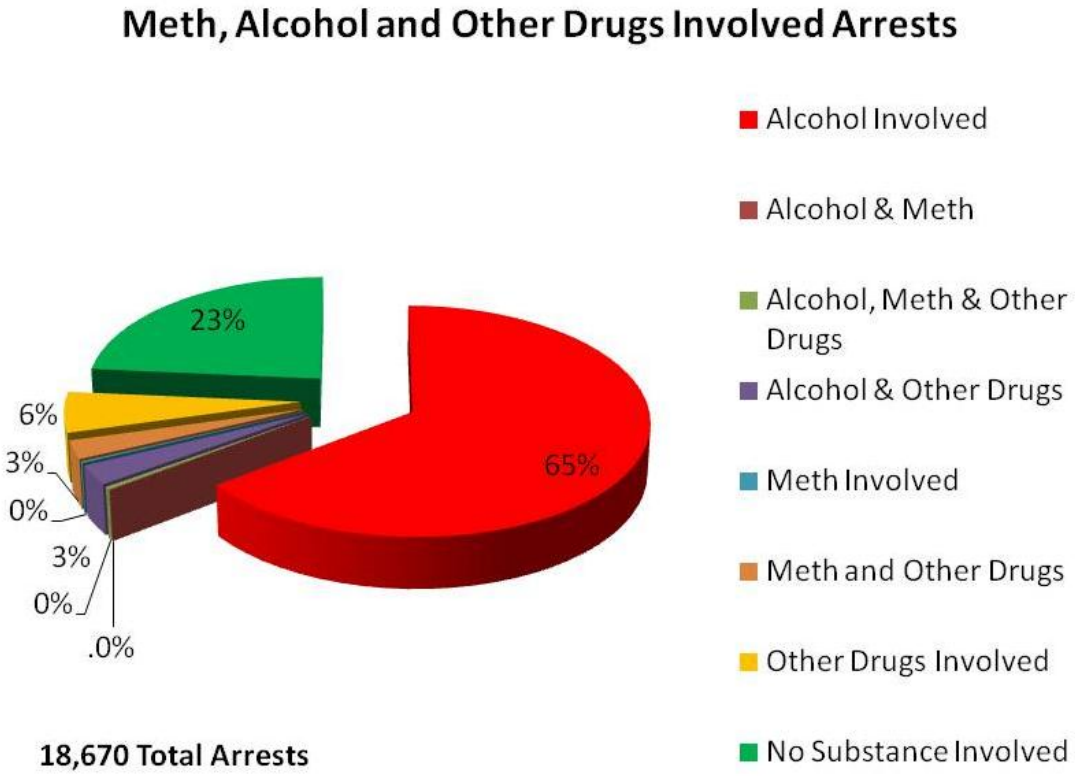
The profile of the average person taken to jail in Wyoming continues to be relatively consistent with previous years. Eight out of ten times it was a male – average age 36 (last year's average was 33). Approximately 10% of the time it was an out-of-state visitor and 6% of the time it was an in-state visitor. Juvenile arrests that resulted in detention in a county detention facility accounted for less than 1% of the total custodial arrests.

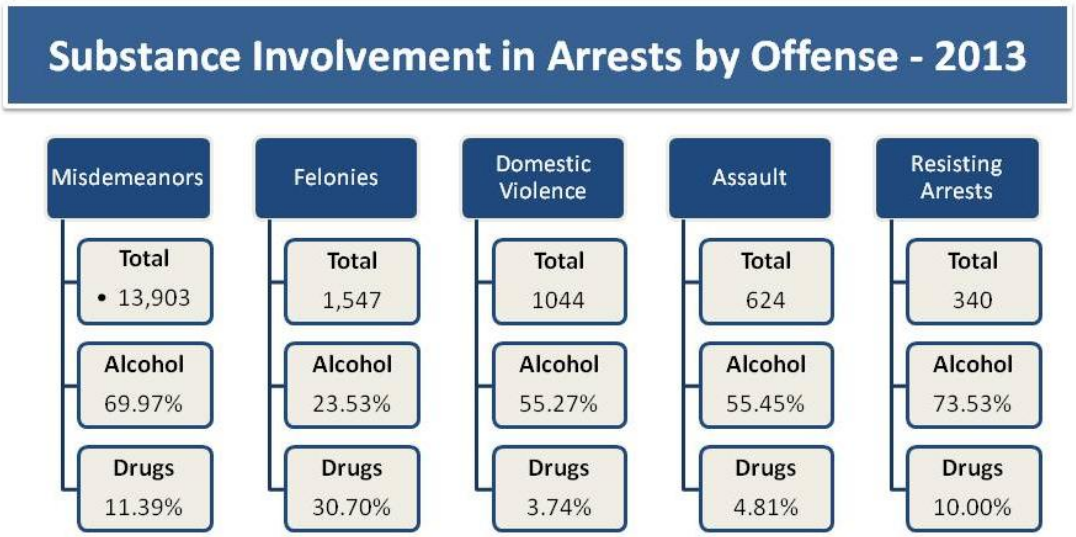


A review of the data collected from persons arrested and subsequently taken to jail indicates that Wyoming continues to be relatively safe from what is generally considered to be "serious" crime. The number of persons who are arrested for felonies are relatively low when compared to the number of persons arrested for minor crimes (misdemeanors). ***Felony arrests accounted for 8% of the total arrests statewide.*** This is a 1% increase from recent years.

Although Wyoming is relatively "safe" from what is generally considered to be serious crime (felonies), the high percentage of alcohol-involved arrests, the inordinate number of arrests for public intoxication and driving under the influence, and the high levels of blood alcohol content for drivers arrested for being impaired represent a real and significant threat to public safety.

A total of 18,670 persons were arrested statewide and taken to jail in 2013 and 77% of the time the arrest involved alcohol and/or other drugs. Alcohol-involved arrests decreased by4% from 2012; however, drug-involved arrests increased 2% and meth-involved arrests increased 1%.





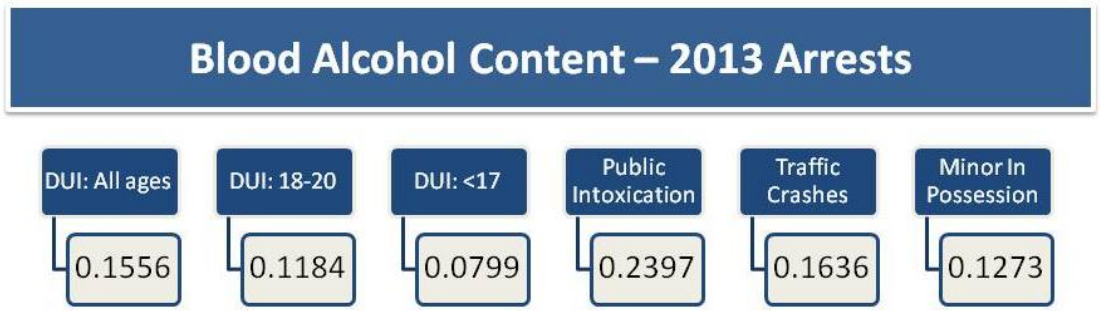
The level of alcohol involvement reported in the 136,864 reported arrests during the last nine years provides statistical evidence that alcohol is, and continues to be, the drug that has the greatest impact on crime in Wyoming.

- Alcohol was involved in 67.69% of all custodial arrests.
- Methamphetamine was involved in 3.44% of the 18,670 reported arrests.
- Other drugs were involved in 11.49% of the reported arrests.
- Arrests for public intoxication accounted for 16.67% of all arrests.
- The average blood alcohol content for persons arrested for public intoxication was 0.24.
- Driving under the influence arrests accounted for 29.6% of all arrests.
- The average reported blood alcohol content for DUI arrests statewide was 0.1556.[1]
- 47% of persons arrested for DUI had a reported BAC level above 0.16 and 9% had a BAC of 0.24 or greater.
- The average reported BAC for 671 persons who were arrested for DUI after being involved in a traffic crash was 0.1636.
- The age group (in 5-year increments) with the highest percentage of DUI arrests was age 21-25 (20%), followed by age 26-30 (14%) and 31-35 (12%).

[1] In Wyoming, a person driving with a blood alcohol content of 0.08 is legally presumed to be impaired.

In order to grasp the significance of the blood alcohol content statistics listed below, it should be noted that a physically fit male who weighs 180 pounds would have to consume at least seven drinks in one hour in order to achieve a BAC of 0.15 – a female weighing 120 pounds would have to consume five drinks in one hour.

Please refer to the Alcohol Impairment Educational Guides for males and females in the Attachments Section of this report for information about the level of impairment for other body weights and drinks consumed.



PUBLIC CONCERNS

The statistics contained in this report identify significant public safety issues which merit further discussion, analysis and action by local law enforcement, citizens and state/community leaders

The high percentage of alcohol involved arrests (67.69%), the inordinate number of arrests for public intoxication (4,241) and DUI (4,353) and the high levels of BAC recorded for these individuals (average BAC: 0.24 for public intoxication and 0.1556 for DUI) appear to validate the concerns about alcohol abuse expressed by Wyoming residents in the most recent statewide public opinion survey[2].

Some excerpts from the survey that involved 4,798 Wyoming residents:

- 79.7% view alcohol abuse by Wyoming adults as a serious or somewhat serious problem
- When Wyoming residents were asked whether they would support a state law that would prohibit selling or serving alcohol to someone who is obviously intoxicated:
  - 64.3% strongly supported such a law
  - 17.9% somewhat supported such a law
- 84.5% of Wyoming residents believe that drinking and driving in their community is a serious or somewhat serious problem.

[2] Wyoming Alcohol Use Issues Survey, Wyoming Survey & Analysis Center, November 2012

SIGNIFICANT STATISTICS AND FINDINGS

This report provides statewide statistics and averages, along with comparisons of county statistics in specific categories. In addition, there are approximately one hundred pages of data in a supplemental report that provides county, community and local law enforcement agency specific statistics.

Detailed charts and graphs included in the Data/Statistics section of this report are helpful in identifying trends involving alcohol-related arrest activity and provide a statistical picture of the circumstances which result in someone being arrested and subsequently taken to jail in Wyoming. The impact of substance abuse on crime statistics varies by county across the state. This report also includes a detailed analysis by county for comparison purposes.

Listed below are a few of the noteworthy statewide averages and county specific alcohol-related statistics and findings from the Data/Statistics section of this report.

****

- **Alcohol was a factor in 67.69% of the custodial arrests in Wyoming.**
  - Counties with significantly higher statistics:
    - Niobrara – 100%
    - Crook – 94.44%
    - Weston – 92.31%

- **Alcohol was involved in 69.97% of all misdemeanor arrests.**

- **Methamphetamine was involved in 3.44% of the arrests statewide.**
  - Counties with significantly higher statistics:
    - Campbell – 8.09%
    - Sweetwater – 7.33%
    - Hot Springs – 6.60%

- **"Other" drugs were involved in 11.49% of the reported arrests statewide.**
  - Counties with significantly higher statistics:
    - Uinta – 23.32%
    - Sublette – 21.65%
    - Sweetwater – 21.45%

- **Arrests for Public Intoxication accounted for 16.67% of all arrests statewide.** (*The statewide average does not include 1,884 persons who were admitted into the Fremont County Alcohol Crisis Center for public intoxication*)
  - Counties with significantly higher statistics:
    - Teton – 27.45%
    - Fremont – 25.55%
    - Laramie – 20.90%

- **The average blood alcohol content for all persons arrested for public intoxication was 0.24.**
  - Counties with significantly higher statistics:
    - Platte – 0.3000
    - Fremont – 0.2703
    - Converse – .2595

- **Driving under the influence (DUI) arrests accounted for 29.6% of all arrests statewide.**
  - Counties with significantly higher statistics:
    - Weston – 82.69%
    - Niobrara – 78.95%
    - Crook – 70.37%

- **10.84% of the arrests for DUI involved drugs;**
  - Counties with significantly higher statistics:
    - Platte – 27.03%
    - Uinta – 23.08%
    - Lincoln – 16.96%

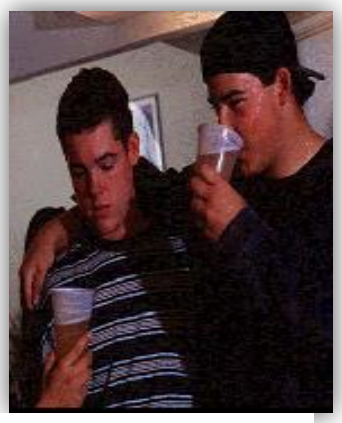
- **The average blood alcohol content (BAC) reported for 4,353 persons arrested for driving under the influence statewide was 0.1556.**
  - Counties with significantly higher statistics:
    - Fremont - 0.1822
    - Carbon - 0.1729
    - Big Horn - 0.1709

- **12.97% of traffic crashes resulting in arrests involved drugs.**
  - Counties with significantly higher statistics:
    - Platte – 50.00% (5)
    - VOADC – 50.00% (2)
    - Lincoln – 35.71% (5)

- **The average BAC reported for 627 traffic crashes that involved alcohol was 0.160.**

- **47% of the persons arrested for driving under the influence had average blood alcohol content above 0.1636.**
  - 9% had a BAC of 0.24 or greater
  - 13% had a BAC between 0.20 and 0.239
  - 25% had a BAC between 0.16 and 0.199

JUVENILE/ UNDERAGE DATA



It should be noted that the data in this report does not represent a complete accounting of juvenile arrests as these arrests often do not result in detention in a county facility.

It should also be noted that ***the number of juveniles taken into custody and placed in a detention center this year for being a minor in possession of alcohol and for driving under the influence was significantly less than in 2010.***

It should also be noted that the number of youth ages 18 to 20 arrested for the same offenses also had similar positive results.

Underage Arrests Involving Alcohol

MIP <17	MIP 18-20	DUI <17	DUI 18-20	Juvenile Arrests/Alcohol
2010 85	2010 380	2010 41	2010 275	2010 349/48%
2011 53	2011 428	2011 25	2011 352	2011 216/41%
2012 10	2012 399	2012 18	2012 300	2012 141/26%
2013 11	2013 304	2013 15	2013 237	2013 108/26%

Listed below are a few significant statistics relative to substance involvement in juvenile arrests for 2013. A chart that provides significant statistics for 2010 – 2012 are also included.

- **5.79% of all persons arrested for driving under the influence (DUI) were under the age of 21.**
- **Juveniles accounted for less than 1% (.0058) of the arrests statewide.**
- **25.93% of the juvenile arrests involved alcohol.**
- **7.41% of the juvenile arrests involved methamphetamine.**
- **29.63% of the juvenile arrests involved "other" drugs.**
- **230 minors arrested for alcohol-related offenses reported obtaining alcohol at:**
  - Party – 29.57%
  - Home – 31.30%
  - Bar – 24.35%
  - Liquor Store – 14.78%

TRENDS ANALYSIS

The graphs pictured below begin to provide a longitudinal view of the statistics which have a direct bearing on public safety. Specifically, these charts track the numbers and percentages of persons arrested which involved alcohol or other drugs, for public intoxication and for driving under the influence for the previous four years.

Substance-Involved Arrests: Percentage of Total Arrests

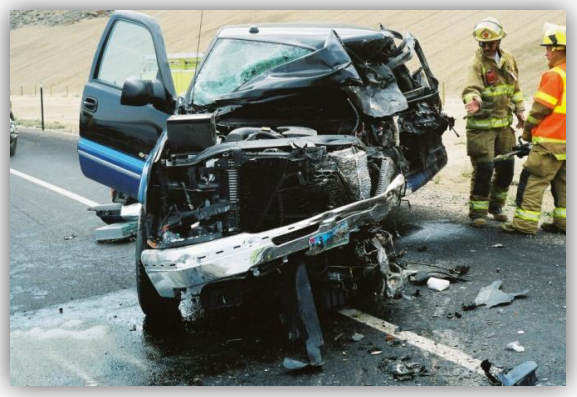
	Alcohol Involved	Meth Involved	Drug Involved	Public Intoxication	DUI
2010	72.03%	2.53%	9.98%	16.99%	35.83%
2011	70.14%	2.21%	9.60%	18.72%	32.06%
2012	72.12%	2.42%	9.52%	18.78%	32.89%
2013	67.69	3.44%	11.49%	16.67%	29.60%

Driving Under the Influence Arrests: 2010 - 2013

	Number of Arrests	% of Total Arrests	Average BAC	Drugs Involved	Traffic Crashes
2010	5,862	35.83%	.1525	7.67%	564
2011	5,199	32.06%	.1545	8.81%	609
2012	4,761	32.89%	.156	9.47%	627
2013	4,353	29.60%	.1556	10.84%	671

TRAFFIC CRASH DATA

Because many of the arrests in Wyoming involve traffic crashes, this report also incorporates alcohol and drug-involved crash data collected by the Wyoming Department of Transportation. Graphs that track the number and percentage of alcohol-involved traffic crashes and fatality crashes in Wyoming now included as a part of this report.



ANALYSIS OF TRAFFIC CRASHES in WYOMING: 2013

Traffic Crashes

- TOTAL • 14,372
- Fatal Crashes • 75
- Deaths • 87

Alcohol-Involved Crashes

- % involving alcohol • 5.9% (848)
- Alcohol-involved fatality crashes • (35%) 26
- Alcohol-involved injury crashes • 40.3% (342)

Drug-Involved Crashes

- % involving drugs • 1.8% (258)
- Drug-involved fatality crashes • 21.3% (16)
- Drug-involved injury crashes • 41.9% (108)

Use of Restraints

- Rollover deaths not restrained • 76%
- fatalities - not restrained • 68%
- Fatalities involving alcohol/drugs - not restrained • 94%

PROJECT DESIGN AND IMPLEMENTATION

The Wyoming Association of Sheriffs and Chiefs of Police contracted with Johnson and Associates, a Wyoming based management consulting firm, to manage and staff this project – to create the master database, to collect and input data, to author the final report and to make presentations to select groups. The Association has contracted with Johnson and Associates to manage and staff this project since its inception.

A task force comprised of administrators and detention facility personnel from each of the county law enforcement agencies involved in the initial data collection efforts in 2005 determined the scope and intent of the project and provided specific direction for its implementation. In the following years, all law enforcement and detention facility administrators in the state were involved in deciding the appropriate fields for collection of data, selecting the subject areas that would be targeted for analysis and refining the process and procedures for collecting the information.

A supply of reporting forms and self-addressed stamped envelopes were provided to all detention facilities in the state - along with an instruction sheet for processing the completed reporting forms. In addition, all detention facility personnel who were assigned the responsibility to oversee their agencies' data collection were provided individual orientations. All completed reporting forms were submitted to Johnson and Associates for data entry on a weekly basis.

The master database for this project was created in a manner that will allow "harvesting" of additional information in the future should a need or particular area of interest arise. The data in this report is presented by "county" and by "department," by actual numbers and percentages, and by various categories of interest. The information was assembled in this manner in order to assist law enforcement administrators, as well as community leaders, to better analyze the information and to facilitate follow-up inquiries of notable concerns.

DATA COLLECTION

A one-page reporting form consisting of fill-in or checked boxes was constructed and refined during the course of this project. It is estimated that the form requires the booking and/or arresting officer two-to-three minutes to fill out during the book-in process. Specific information that was collected during the book-in process include: type of offense, whether alcohol was involved; whether drugs were involved; location of last consumption and point of sale; known blood alcohol content levels for arrests involving public intoxication, driving under the influence and minors in possession; and demographic information. (A sample of the reporting form is included in this report)

A total of 18,670 reporting forms were submitted by the twenty-three county detention facilities and the Volunteers of America Detox Center during the twelve-month data collection period January 1 through December 31, 2013. The following page provides a complete accounting of the number of reports submitted by each county compared to the number of actual field-arrests book-ins.

Total Number of Reports to Number of Actual Arrests
January 1, 2013 - December 31, 2013

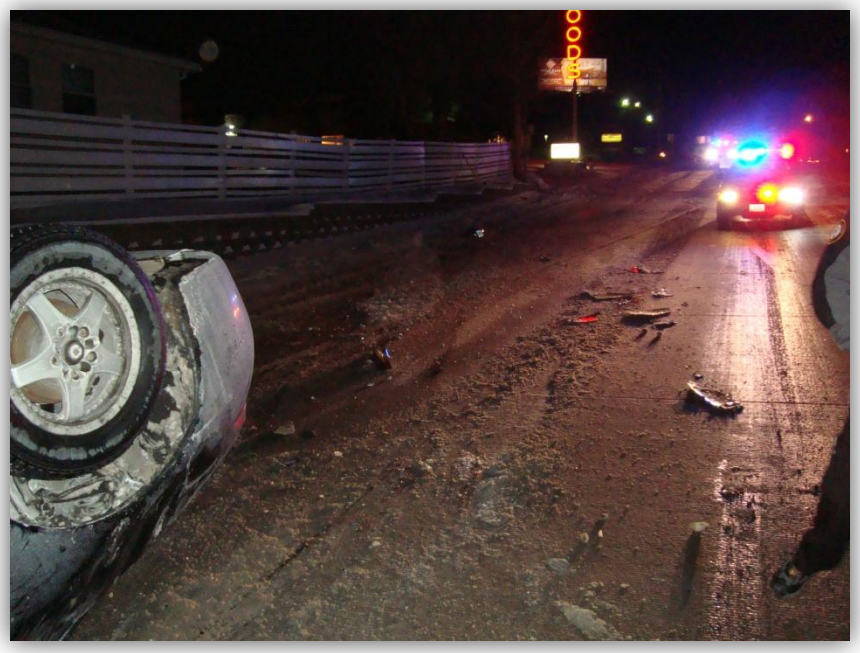
DATA /STATISTICS

All information contained in the reporting forms that were submitted by the participating counties was entered into a master data base by week and by month. This information was subsequently assembled by category, by county, and by department in order to facilitate appropriate comparisons and further analysis.

A detailed breakdown of information for each county is available in a separate Supplemental Report.[3] A sample of the county statistics is included in this report. Natrona County was selected as the sample to be included as this county generated the greatest number of arrest statistics.

The substance-related arrest data in this report is presented in a series of tables and graphs:

- Tables – Number of Arrests and Percentages
- Pie Chart – Methamphetamine, Alcohol and Other Drugs
- Tables – Felony/Misdemeanor Arrests Involving Alcohol
  - Alcohol Involvement by Category of Arrest
- Bar Graphs – Alcohol Arrests Percentages, BAC
- Pie Graphs – DUI, BAC, Traffic Crash Statistics
- Tables and Bar Graphs – Juvenile Statistics
- Pie Graph – Juvenile Demographics, Where Minors Obtain Alcohol
- Table – Natrona County Statistics (Sample County Statistics)



[3] A PDF of this report and the accompanying Supplemental Report can be downloaded from the following websites: http://wascop.com and http://jandaconsulting.com

Statewide Arrests
January 1, 2013 - December 31, 2013

Numbers by Department

** Total of percents in Location of Consumption and Point of Sale categories may exceed 100% due to single arrests involving more than on location or point of sale.*

ACKNOWLEDGEMENTS

This project was accomplished due to the committed support of all the law enforcement administrators in Wyoming, and in particular, the Sheriffs' generous commitment of agency resources. The day-to-day supervision and weekly submittal of the project reporting forms and the individual efforts of the hundreds of arresting/detention officers who filled out the reporting forms should be acknowledged as well. Their collective efforts were absolutely essential to the overall success of this project.

EVALUATION OF ALCOHOL FACTORS IN CUSTODIAL ARRESTS

Albany County Sheriff's Department

OFFICER or CR NUMBER _____ DATE_____

The following information is being collected in an effort to evaluate alcohol factors in custodial and DUI arrests in all twenty-three counties in Wyoming. This data will be used for statistical analysis purposes only. Please fill out a separate form for every person being booked into your facility. Please fill in the information based on your knowledge of the case, personal observations, and/or questioning of the person arrested. The person should be advised that no case sensitive information is being recorded and that this information is being collected for statistical purposes only. A copy of the final report will be provided to every participating agency. Thanks for your help.

DEPARTMENT *(Circle agency affecting arrest; if agency is not listed please fill in "Other")*
Albany Laramie UW PD WHP G&F Other: _____

GENDER *(Circle one)*: Male Female **AGE**: _____

STATUS *(Circle one)*: County Resident In-State Visitor Out-of-State Visitor

OFFENSE CHARGED *(Circle all that apply)*: Misdemeanor Felony

TYPE of CRIME *(Circle all that apply)*:
Domestic Violence Assault Resisting Arrest
Public Intoxication DUI MIP

TRAFFIC CRASH INVOLVED *(Circle one)*: Yes No

DRUGS INVOLVED *(Circle one)*: Yes No

RELATED EDUCATION & EXPERIENCE:

- Twenty-four years experience as an administrator of a state agency with direct responsibility for budget development and administration, planning, organizing, directing, staffing, and program services delivery.

- Masters degree in Public Administration; over thirty-five years experience training and working with executives to achieve excellence in government, manage and implement change, increase organizational effectiveness and maximize program efficiency.

- Conducted in-depth management studies for criminal justice agencies for the states of Massachusetts and New Hampshire. These studies assessed the delivery of program services by agencies with statewide responsibilities and provided recommendations for increasing organizational efficiency and agency credibility.

- Over thirty-five years of experience in researching, writing, and administering a variety of federal and state grants. Grants involved in excess of several million dollars for a wide variety of purposes: personnel, equipment, training, research and providing services with targeted priorities.

- Extensive experience in researching, evaluating and implementing a wide variety of projects. These projects varied in scope and duration, and many required the involvement and partnership of multiple agencies and personnel throughout the state, as well as the enactment of state legislation.
    - Evaluation performed for the Substance Abuse Division - WDH – "Responsible Server Training Program" – October 2002
    - Managed the Wyoming First Lady's Initiative to Reduce Underage Drinking – November 2004 to September 2006
    - Currently serving as the Facilitator for the Wyoming Seat Belt Coalition
    - Managed project and authored report: A Comprehensive Review of Alcohol State Statutes: Findings and Recommendations for Reducing Underage and Binge Drinking in Wyoming – 2008
    - Management Review of the Wyoming Seat Belt Coalition: Mission, Goals and Work Scope – September 2011

- Thirty years of experience in conducting a variety of feasibility studies
  - Conducted numerous feasibility studies for the Wyoming Legislature
  - Most recent feasibility study conducted for the Town of Wright: "Should the Town of Wright create its own Police Department?" May 2004

- Conducted executive level training for the US Department of Justice/ State Department:
  - Instructed a 40-hour training course entitled "The Office of Professional Responsibility" for the Lithuania National Police command staff - 2001
  - Instructed an 80-hour training course entitled "Sex Crimes Investigations" for Investigators and Prosecutors in Lithuania - 2001

- Faculty - Criminal Justice Department - University of Wyoming (September 2000 to September 2012)
  - Criminal Justice Management, Concepts of Modern Policing, Ethics in the Administration of Justice, Criminal Justice Civil Liability, Politics and the Judicial Process, Criminal Courts and Processes, and Police Deviance.

- Management consultant for the Wyoming Association of Sheriffs and Chiefs of Police - Projects completed or currently in progress:
  - Evaluation of Alcohol Factors in Custodial Arrest in Wyoming – May 2005
  - Statewide Public Opinion Survey: Alcohol Issues and Policies (phone survey of 4,600 residents of Wyoming – Report released November 2006
  - Evaluation of Alcohol Factors in Custodial Arrests in Wyoming - 2006: Phase I (data collection), Phase II (Analysis, Findings and Strategies)
  - Evaluation of Alcohol Factors in Custodial Arrests in Wyoming – 2007, 2008, 2009
  - Alcohol and Crime in Wyoming: 2006 – 2008
  - Alcohol and Crime in Wyoming: 2010, 2011, 2012, 2013, 2014
  - Project Manager for the Enforcing Underage Drinking Laws Program – September 2007 to May 2009
  - Project Manager for WY-CIA Wyoming Communities in Action – Phase I, Phase II – September 2007 to May 2009
  - Project Manager for Reducing Underage Drinking and Driving – October 2007 to September 2009
  - Project Coordinator for Project Safe Neighborhoods in Wyoming: A national initiative directed by the US Department of Justice aimed at reducing gun crimes and violence in this country. Initiative is currently in its sixth year of operation in Wyoming.

- Facilitator/Coordinator for the Wyoming Seat Belt Coalition – December 2006 to present

- Administration and coordination of WYDOT-Highway Safety's Selective Traffic Enforcement Program Grants for Wyoming law enforcement agencies– December 2008 to present

- Facilitator for the Wyoming Safe Communities Project – FY 2012

- Facilitator/Coordinator for the Governor's Council on Impaired Driving – December 2011 to present
