

CASPER-NATRONA  
COUNTY HEALTH DEPARTMENT

## FREE HEPATITIS A VACCINE

OFFERING VACCINE WHILE SUPPLIES LAST

Did you know that Natrona County has seen an 84-fold increase in Hepatitis A infections in 2017-2018?

### Walk-in Clinic Info:

Friday, August 17, 2018 from 10am-4pm  
Friday, August 24, 2018 from 10am-4pm  
Friday, August 31, 2018 from 10am-4pm

We will be offering FREE Hepatitis A doses to individuals on those dates. We will be offering vaccine while supplies last. We are specifically targeting the following risk groups:

- People who work in commercial food establishments and who handle and prepare food.
- People who travel to or live in countries where Hepatitis A is common.
- People who have sexual contact with someone known to have Hepatitis A.
- Men who have sexual encounters with other men.
- People who use recreational drugs, whether injected or not (includes use of marijuana)
- People who have clotting-factor disorders, such as hemophilia.
- People who are household members or caregivers of person known to be infected with Hepatitis A.
- People who have sex with other people who use recreational drugs.
- Law enforcement personnel and other first responders.
- People who are homeless or who have unstable housing for at least a portion of the year.

FREE vaccine doses will be given at the walk-in clinics listed above. Walk-ins are welcomed on a first-come-first-serve basis during the designated immunization clinic times.
