

## Who Qualifies to receive Jynneos, the Monkeypox vaccine.

Currently Jynneos is on very limited supply and we have to follow strict screening guidelines that are set by the Wyoming Department of Health to determine who is eligible to receive Jynneos.

The patient must meet at least one of the following to be considered eligible for the vaccine.

- Men who have sex with men and who have had multiple or anonymous sexual partners in the last year.
- Partners of men who have sex with men who have had multiple or anonymous sexual partners in the last year.
- Transgender and nonbinary persons assigned male at birth who have sex with multiple or anonymous sexual partners who are male or male assigned at birth within the past year.
- Sex workers (of any sex)

It is a two-dose series but due to limited supply we are not currently holding back any doses for the second dose in the series. If supplies allow we will administer second doses as close to the recommended 28 day interval as possible.

If you have a patient or client that you believe is eligible to receive the vaccine please call the Casper-Natrona County Health Department to confirm eligibility and get scheduled. Phone number: 307-235-9340
